Welcome To Our Promotional Issue: Us Helping Us = Unity

Power Only Concedes To Power

Since the outcome of the Freddie Gray case, many have their opinions as to why the judicial system acts the way it does when it comes to the deaths of Black Men, Women and Children.

The Question is do you believe this same outcome would be the same if Freddie Gray was Caucasian, Jewish or even Asian? Do you really think that he would have been stopped and arrested if he was one of the above persuasions?

The truth is like a two-edge sword it cuts both ways. It is also written that the pen is mightier than the sword. One might say that some make themselves *Continued on page 20*

Incineration: Drugs & Weapons

It is still our duty and our obligation to save our youth and to attempt creating an atmosphere for the future generations that will be peaceful. For over the past 30 years, I along with others, have screamed and protested that there should be a group put in place to witness the incineration process of all weapons and drugs confiscated by the police departments across this country.

About 15 years ago the Baltimore city council passed a resolution with every member supporting this idea. At that time our present Governor here in the state of Maryland was one of the council members. The resolution was known as (282) which *Continued on page 20*

Black Political Power vs. White Political Power

First and foremost let me make it clear that I have a lot of distrust regarding government. If I had the power as it relates to government I would totally dismantle it so that it could be reconstructed. I have no faith in neither of the leading parties and to be perfectly honest I have no faith in the other parties either. However, it is comfortable to say that we basically live within a two party

political system; the Democrats and the Republicans.

*Despite the fact that this country is hundreds of years have been slaves under both parties *Despite the fact that we as blacks have been denied equal access of citizenship from both parties *Continued on page 25*

The Evolution Has Begun: The National Black Action Portal

Greetings, my name is David Murphy! We are all aware of the fact that there are many problems in the African American communities and that there has been systematic discrimination, hate and disrespect toward African Americans! Our situation is at a boiling point and if you and I do not work toward a solution then we will see more blatant crimes against our people. Our unem-

ployment rate will continue to rise, our businesses will continue to suffer, and our children will feel more helpless than ever before!

I have a solution to a multitude of our problems and situations! With your help and support we can create tens of thousands of jobs for our people! With my evolutionary *Continued on page 20*

Black Men Unifying Black Men

Too often, we have heard, we have to do something about the events that are occurring on our streets. This senseless the senseless police killings that go unpunished. To add to the dilemma, the political climate is like something we have never seen before.

educational institutions as the questions are being raised as to why? Why is it that in the year of 2017 education and the state killing is just off the chart, especially of education is worse than it was 50 years ago? Look at the communities that we claim as our communities and yet, where is our ownership of the communities?

Look at the conditions surrounding edu-

Calling All Soldiers!

Calling all soldiers from every area and profession. The battle is raging, too many of our people are being murdered, too many are incarcerated, and the masses are miseducated and misinformed! The enemies are using weapons of mass destruction such as systematic discrimination, propaganda, hatred, media and much more!

We need all soldiers to report for duty because their forces are advancing and destroying everything that our ancestors have so bravely fought for. We need every man, woman and child to take a valiant stand to combat those evil forces

and spirits that seek to eliminate us like they did the indigenous people that were on this land before those Europeans arrived.

This is a call for action, we can no longer turn the other cheek and accept the status quo. We can no longer sit and do nothing while our children's futures are being destroyed. We can no longer accept being second and third class citizens after the debt we paid to make this nation great!

We must, and we have to put up a united front in order to stop this flow of mass destruction! We need our educators to teach, we need our entrepreneurs to

build a strong economic front, we need our politicians to legislate new policies, we need our religious communities to speak truth to power, we need our Generals and street soldiers to man the front lines, WE NEED YOU!

We need every able-bodied man woman and child to fight the good fight until the victory is won! This war is real, there are many casualties seen and unseen. The fact is that there is a systematic plan in place to destroy us and to keep us in bondage. We have to stop being reactive and in the defense mode, we have to be active and create an offense to advance our people.

Soldiers, we have to fight with every ounce of courage, and we must create a united front. We have to join forces and focus on things that unite us not things that separate us. For such a time as this we need all who call themselves conscientious or soldiers to come together on one accord to defeat this enemy that seeks to destroy us all! This is not a drill, this is warfare!

Unity Is the Solution

It is a sad reality when we gather and talk about the problems of the world and the problems within our community. We are constantly seeking for answers to stop some of the madness that has destroyed families as well as communities.

There is indeed a big difference when we speak about protesting, organizing and unifying, i.e., unity. Yes, each one definitely shares a common purpose. Clearly, we gather to protest because of something that we are in disagreement about. I guess the best example to use right now is the police abuse and the police murders against Black People and People of Color.

See, organizing becomes a part of a means to an end when publicly stating an opinion if we organize to protest..., or when we organize for another such event...however, unity encompasses each aspect and much more. You see, when we unify we come to an agreement that our best interest is in the hands of one another.

To that end we will make it a point to spend our money with one another....we will make it a point to have an established agenda that those who wish to represent us will know and understand....and if they are not promoting our concerns....it will be made clear that they will have no chance to get in office because the majority of us will vote in a unified manner.

National Editor & Chief
Bill Goodin

Activist, Author, Publisher & Organizer

common answer. Yes, we are not unified.

Truth is, all great leaders saw the need to unify and because it has not happened on the mass scale and because it has not been able to be maintained, the semblance of unity that we may have had.....means little as to the importance of it.

People who are against us spend billions of dollars to assure us that unity will not happen. I mean do we think the culture of drugs and weapons that have flooded our communities just happened out of the blue?. There is a reason as to why it has happened and we are presently suffering from the consequences of that reasoning.

I have had people to say what kind of unity am I talking about.....I am talking about unity for salvation.....I am talking about unity for peace.....I am talking about unity that prepares us as a people to deal with one another and to see the value *Continued on page 28*

National Manager:
Walter E. Murphy
Managing Director:
The National Black Unity News

Walter Eugene (Dempsy) Murphy is the Managing Editor (ME), and

is one of the senior members of our management team. He is the coordinator of all our editorial departments, and reports directly to the Editor in Chief.

A Baltimore native, and now a res-

ident of Virginia, Dempsy Murphy, has a wife and one son. His educational, occupational, and social resumes are eclectic, and filled with positive outcomes. He has clear and achievable goals, and is a true asset to our newspaper.

Editor:
Dr. Barbara Watties
The National Unity News

Dr. Barbara J. Watties is a dedicated, ambitious and goal-driven retired educator with over 30 years of progressive experience, in multiple settings. Having had her Master of Science in Elementary Education and Doctor of Philosophy/Elementary Education conferred upon her from La Salle University Dr. Watties served as an Elementary Special Educator for Baltimore City Public Schools for 20 years. Having retired from a very self-rewarding career as an elementary educator Dr. Watties expanded her impact upon the educational process by supervising and mentoring educators new to the system at Johns

Hopkins University, conducting Maryland Writers Workshops at Towson University and serving as an English and Literature Professor at Sojourner Douglas College.

In 1995 Dr. Watties founded and currently serves as the CEO of Ebony Keepsakes, a multi-message creating, service providing framed messages that convey love, hope, encouragement and faith for every heart and soul that has ever needed nurturing.

Her tag is: When cards Don't Say What U Want Them To

Let Me Pen Your Thoughts For U

Dr. Watties has also established the "Hurting to Healing Outreach Ministry" where she conducts "on site" workshops that focus on relationships ~where participants are invited to engage in an ex-

perience, not an emotion ~ But a New Paradigm ~ a Change ~ a Challenge ~ a Choice.

Her favorite pass time involves writing resulting in the publication of her books Soil For The Soul Ain't No Mountain & Hurting to Healing and a collection entitled Seasons of over 600 pieces of poetry - prose and prayers.

She humbly - yet boldly - attributes her path in life Not to her own understanding but to the God of her Salvation who has ordered her steps.

She lives by faith * because she believes that the spirit of the Lord is: Organizing ~ Unifying ~ Sanctifying ~ Abiding ~ Glorifying. Her philosophy is:

Hurting begins in the heart ~ Hollow-ness begins in the soul ~ Healing begins in the spirit ~ Because He lives.

The National Black Unity News was created because first and for most it is needed! Black/African Americans in the United States own less than one percent of the media there for we are basically not being heard or listen to.

Our purpose is to unify our variety of voices, too strengthened our economic base, also to educate and inform our people from our perspective! Join us, so that we can unite us to be self sufficient and to rely on us to stop the misleading information that we and others think is the fact about us!

We will unite our voices through a variety of media services, Newspaper, Internet, Radio and Live Streaming Television. Our purpose is to unite, inform, educate and build economic empowerment for Black/African Americans!

The Seeker Of Truths

National Editor Of Culture & History
Pat Carter

**The Seeker Of Truth
Each One Teach One**

Hi there, my name is Patricia Carter, I have been a blogger on Facebook, for the past five years. Now, I am the national editor of both ancient and present African/African American history, for The National Black Unity News. It is my intent to bring to the forefront that which is buried, our history. I will be presenting you with factual information that may discredit some of your current thinking. I hope to open up a dialogue of respect with my readers by giving you what you need to know, but had no idea

of its existence. My objectives are to educate, inform and support the African-American communities as well as other races of people who believe that they received accurate information on the topics related to our communities. It is my passion to find out as much as possible about our beginnings. Without knowing where you originated, it is hard to know the successes inventions, and achievements that our people have accomplished. I will be bring you information to enhance the quality of your as

well as your families' lives. We had cultures, languages and customs before our forefathers were stolen from their lands and sold into slavery. It is time to seek out all that was lost, because I am The Seeker of Truths.

Welcome to the greatest journey of your life. I will attempt to embark on an archaeological dig to uncover the truths of the first man who walked this planet. My goal is to unearth the truth of were mankind started and his journey across the World.

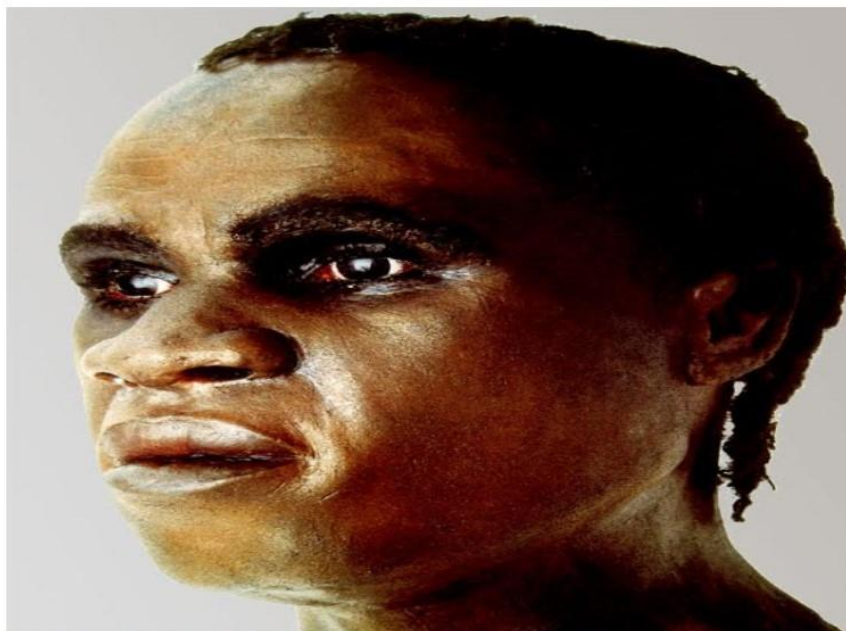

Okay, let's begin from the beginning: Interactive Learning. First read the article and then, watch the video.

Professor Rebecca Cann and her crew discovered Mitochondrial DNA markers in 1987, and was published in The Journal of Nature, titled "Mitochondrial DNA and Human Evolution". They

were able to pinpoint humanity's ancestral home. They compared DNA from women around the world and found that women of African descent showed twice as much diversity as their sisters. They noticed that the telltale mutations seem to occur at a steady rate, so, modern humans must have lived in Africa twice as long as anywhere else. Scientists now calculate that all living humans are related to a single woman who lived roughly 200,000 years ago in Africa, a "mitochondrial Eve." She was not the only woman alive at the time, but if geneticists are right, all of humanity is linked to Eve through an unbroken chain of mothers.

Check out this video: Copy and Paste URL into address bar

"The Real Eve", Discovery Channel
<https://youtu.be/2Ca1AC5hVtE>

Scientifically, the BLACK woman is the only organism that possesses the Mitochondrial DNA that has all the variations possible for every different kind of human being on this earth. When the DNA of a black woman mutates, all other types of human beings come about . You can research this topic and it is true. This is called the "Eve Gene" and is only found in black women.

National Editor:
Powerful Thoughts & Powerful Words
Achaniel F. Lucas, Sr.

Founder of: The Power Of Positive Words

My name is Achaniel F. Lucas, Sr. I was born in Brundidge, Alabama. My best friend and high school classmate is Congressman John Robert Lewis of the state of Georgia. After high school, John Robert Lewis marched in Selma, Alabama while I marched in Vietnam.

After about nine years in the military, I went to work for the department of Veterans Affairs, where I retired after thirty three years. Since retiring, I have spent my time as a mentor, counselor and educational director in church.

Currently, I am a Senior Ministry Coordinator. I teach and lead seniors to the realization that they are special, useful and difference makers. Also, I am in the process of writing a book of poems, which will be available very soon.

I believe that God is supreme and without him, I am nothing. My ultimate goal in life is to make a difference in the lives of everyone I come into contact

with. I believe that all women should be respected. I believe that all men should respect women. Mature men have the responsibility to teach young men how to respect women and their peers. Not only teach them in word, but more importantly, by their deeds, by their example (by our example).

I also believe that mature women have the responsibility to teach younger women to respect themselves, and to demand respect from men. I also believe with all my soul that when we (men and women) respect one another, the world will be a better place. Enough about me. Now let's go to work and make a difference.

I compose original, specialized poems for any occasion at a minimal cost of \$14.95 each. For further information and to contact me, please call (443)312-3093 and/or write to P. O. BOX 2126, GLEN BURNIE, MARYLAND 21060-

Why I Love Black Women

Why do I love Black Women

allow me this to say

Black Women are close, as far

as the night is from the day

Black Women are as small, as large

as a brook or river stream

but, all black women are much alike

with desires, with hopes and dreams

Black Women, why do I love you so?

is it because you have much to share

or is it the way you move or smile

is it the way you wear your hair

Black Women you have such inner strength

you set the world on fire

you speak with such authority

sometime, you weep and cry

Black Women, your fragrance , oh! so sweet

soars with the summer breeze

your radiance, your beauty, your feminine ways

drives strong men to their knees

Black Women, whenever I look at you

your beauty, so sublime

your eyes, your lips, your full embrace

I wish you all were mine

You may have locks, be slim and tall

have curls, be round and short

you are magnificent, Oh! Black Women

with all my being, I love you all

National Editor: Sleep Disorders Donata D. Mooring

“How sleep affects many areas of our daily lives and the solutions to solve this epidemic”

Welcome to The National Black Unity News. My name is Donata D. Mooring, one of the National Editors. I have over 25 years as an entrepreneur and I worked in the health and education field. I have a burning desire to educate, inform, provide resources with natural, organic, and healthy products while of-

fering an opportunity to make money.

My focus and goal is to help people that need information, resources and coaching due to lack of sleep that can cause obesity. Accordingly, to Women-Health.gov 4 in 5 Africa American women are overweight or obese which increases the risk of heart disease, stroke, diabetes, high blood pressure and sleep apnea just to name a few. The Center for Disease Control (CDC) "Sleep is an essential component of health, and its timing, duration, and quality are critical determinants of health (1). Sleep may play an important

role in metabolic regulation, emotion regulation, performance, memory consolidation, brain recuperation processes, and learning".

As one of the publishers, we can bring light to our community of various solutions for sleep issues, obesity, and overall health and wellness. We will learn, educate, motivate, provide solutions and resources to improve a better quality of sleep and life for you and your family. Most importantly, we will offer natural and organic products while offering a means to improve your financial health and wealth

10 Reasons How Lack Of Can Affect You!

1. Sleepiness Causes Accidents

Sleep deprivation was a factor in some of the biggest disasters in recent history:

2. Sleep Loss Dumbs You Down

Sleep plays a critical role in thinking and learning. Lack of sleep hurts these cognitive processes in many ways.

3. Sleep Deprivation Can Lead to Serious Health Problems

Sleep disorders and chronic sleep loss can put you at risk for: Heart disease, Heart attack, Heart failure, Irregular heartbeat, High blood pressure, Stroke and Diabetes.

4. Lack of Sleep Kills Sex Drive

Sleep specialists say that sleep-deprived men and women report lower libidos and less interest in sex

5. Sleepiness Is Depressing

Over time, lack of sleep and sleep disorders can contribute to the symptoms of depression. In a 2005 Sleep in America poll, people who were diagnosed with depression or anxiety were more likely to sleep less than six hours at night.

6. Lack of Sleep Ages Your Skin

Most people have experienced sallow skin and puffy eyes after a few nights of missed sleep

7. Sleepiness Makes You Forgetful

Trying to keep your memory sharp? Try getting plenty of sleep.

8. Losing Sleep Can Make You Gain Weight

When it comes to body weight, it may be that if you snooze, you lose. Lack of sleep seems to be related to an increase in hunger and appetite, and possibly to obesity.

9. Lack of Sleep May Increase Risk of Death

A study showed that those who had cut their sleep from seven to five hours or fewer a night nearly doubled their risk of death from all causes. In particular, lack of sleep doubled the risk of death from cardiovascular disease.

10. Sleep Loss Impairs Judgment, Especially About Sleep

Lack of sleep can affect our interpretation of events. This hurts our ability to make sound judgments

National Editor Fitness/Nutrition Catherine Brown

F.I.T Nutrition

Catherine L. Brown is a well-recognized expert in fitness and wellness throughout the Baltimore metropolitan area. She is an entrepreneur and owner of CBLifestyle Coaching and F.I.T. Nutrition, with over 20 years in the industry and 10 years as an employee of the Greater Baltimore Medical Center, Catherine's entry into the fitness and nutrition industry was a natural progression from the medical field.

After seven prosperous years with Bally's Total Fitness, she drew on her training expertise and ventured out as a freelance personal trainer. She opened her

own personalized fitness center, drawing clients from Cecil, Harford, Howard and Baltimore counties in the state of Maryland. Ms. Brown's personalized training offers motivational seminars, boot camps, individualized fitness instruction to people of all ages, including men and, in particular, women challenged by self-esteem issues sparked by weight gain, athletes. Catherine also teaches nutrition, healthy cooking classes with the benefits of eating healthier to gain and maintain a healthy lifestyle.

In 2010, Ms. Brown expanded her talents into the government arena at Aber-

deen Proving Grounds, Maryland (APG). She was invited to train over 30 officers of the 20th Support Command; the first female civilian to ever do so. She was subsequently invited to conduct physical fitness training at their annual Organization Day. This led her to being featured and recognized on the front page of the Post weekly newspaper, the first female civilian ever to do so. Her talent and discipline afforded her the opportunity of being trained and certified by the United States Army Public Health Command (USAPHC) as a Certified Physical Pregnancy Post-Partum Instructor Trainer. With this certification, Ms. Brown established the first ever physical pregnancy post-partum training program offered at APG. She has hosted several events and served on multiple committees seeking to improve the health and wellness of the APG community and soldiers.

Ms. Brown's commitment to her clients and the wellness industry is apparent based on the certifications she has at-

tained, including: certified Advance Sports Nutrition Specialist, Master Personal Fitness Trainer and Sports Medicine Rehab Specialist, certified by the International Fitness Professional Association (IFPA). Through the National Strength Professional Association (NSPA), she is certified as a Conditioning Sports and Strength Trainer. She is also certified as a Personal Fitness Chef and Running Coach with the National Exercise Sport Trainer Association (NESTA) and a member of American Personal Chef Association.

Ms. Brown continues to stay active in various community service initiatives. She's worked with a wide variety of clients such as at-risk youth. Low income families, and chronic health clients, by developing customized fitness, and wellness programs.

She has integrated all the necessary components for a healthy lifestyle in a unique program. She is a Medical Fitness expert, Master Trainer, Nutrition Specialist, and Personal Chef.

Abused Women/Girls Issues
Christy Johnson
President/Founder/Motivational Speaker
Advocate: Finding Your Destiny, Inc.

Christy Johnson is the President/ Founder of Finding Your Destiny, Inc. a Non-profit Domestic Violence Shelter and Prevention Organization. She is an Activist for the mistreated and abused. Her goals are to serve all races and sexes no matter their orientation. Mrs. Johnson's goals through societal transparency are to empower, transform, and rebuild the lives of women and teen girls through Finding Your Destiny, Inc. and by using GOD'S word to teach about Domestic Violence and Suicide.

On September 10, 2013 her daughter

Christy Johnson is a Mother, Military Wife, Domestic Violence Advocate, and Suicide Prevention Activist, and Radio Host- The Destiny Show. She has an closet at the age of 19; due to domestic violence. Immediately, she knew she had to become an advocate for other women and teen girls in dangerous relationships; which was the beginning of Finding Your Destiny Inc. and her dedication to life and happiness. She is dedicated to saving as many lives as possible and through her Organization's services and her experiences they will bring great benefit to the communities at large.

Christy Johnson is a Mother, Military Wife, Domestic Violence Advocate, and Suicide Prevention Activist, and Radio Host- The Destiny Show. She has an

Associate's Degree in Business Administration. She also has 12 years of experience in Nursing & Human Resources. Mrs. Johnson is also finishing a degree in Forensic Psychology. Mrs. Johnson also believe in giving back by volunteering with the Howard County Public Schools and Girls Scouts of Central Maryland. She has helped many women in the local community with domestic violence issues, protection orders, divorce filings, and advocate testimonies.

Finding Your Destiny has created an Internship Program for Coppin State University; Criminal Justice Students. The curriculum is an extension of how dedicated and determined Christy Johnson is on education, safety, saving lives, and restoring futures.

Mrs. Johnson is a sought out speaker for various colleges including Brightwood College of Towson, MD. She has spoken at many Domestic Violence Workshops and has taught many Domestic Violence Classes.

Finding Your Destiny, Inc.

As a creator of The Destiny Show; Mrs. Johnson has interviewed many Domestic Violence Survivors, Rape-Gang Survivors, Other Sexual Assaults, Former Abusers, Domestic Violence Advocates, and Entrepreneurs' dedicated to impacting the communities in a positive way.

Mrs. Johnson is unstoppable when it comes to Domestic Violence and bring awareness to those affected by abuse, domestic violence, and suicidal ideation.

She enjoys helping women, children, and teen girls live better, become successful, and empowered individuals. She is ensuring that women, children and teen girls become empowered by being a conference presenter/motivational speaker as well as penning her first books about dealing with Domestic Violence and Suicide Prevention. Mrs. Johnson will not give up on anyone because she believes in people reaching their fulfilled Destiny!

**National Editor: Finance
Garrett C. Kellam**

**Building Business Credit
& Capital Solutions**

Greetings my name is Garrett C. Kellam I have more than forty years of service and experience in training coaching and leadership, from working as a youth counselor at The Echo House and The Neighborhood Youth Corps. I also made a career in security in Maryland's Penal Institutions where I trained Dogs and People for more than 32 years in which I retired. All through the years of my career I always managed to multitask and

successfully operated several businesses. I have evolved into the financial industry, where I help individuals' and businesses get the capital they need through a variety of services other than the traditional banking institutions.

There is a disparity in the African American communities especially when it comes to financing our businesses and services. There is a void in the way mainstream institutions distribute fund-

We Now Have Access To Capital, Funding Our Projects

ing. There are unfair practices, institutional discriminations, and most people do not understand the way money works. I can show you how to get your fair share of capital to accomplish your need such as Business Needs, Real Estate, Education, etc.

I really want to help those who want to help themselves with the right amount of funding to bring their visions to life! There are a variety of ways to educate people and help them receive funds for just about anything from \$5,000.00 to Millions.

I also provide a program that would take an individual step by step and when one completes the course you are Guaranteed a loan of \$50,000.00 or more! Most people traditionally use their personal line of credit to get loans, but in spite of

your past personal history you can create a Business Line Of Credit!

In closing, information is power! One of the reasons I am involved with The National Black Unity News is because throughout my entire business history one of the most pressing issues was lack of or access to capital. I have witnessed so many promising businesses and services fail or go under because they did not qualify or there was too much red tape to get the proper funding. I am honored to fill this void and help people to get the funds they need in business or personal endeavors. If you need funding contact me, I am accessible and I am more than willing to assist you, in fact I want to help you! For those who are interested in more information you can go to our website or just give me a call.

Where Desire Meets Opportunity

We help business owners get approved for business credit and access to funding for their business, whether they have good or bad personal credit.

Our business funding and credit suite provides clients with an easy step-by-step system to help business owners access funding and build business credit

We help you through an online funding application. In this application we actually reveal exactly what lenders are looking for and even help you meet lending criteria to insure you will be approved for the maximum in funding.

You can be approved for store credit with places like Staples, Lowes, Home Depot, Wal-Mart, Costco, BP, Sam's Club, Dell, and many more. You can also get approved for large \$10,000 limit credit cards with some stores and Visa MasterCard credit cards that you can use almost anywhere. We even offer you a \$50,000 guarantee that you will be approved for at least \$50,000 in business credit, and this guarantee applies regardless of your personal credit condition. Plus this \$50,000 in business credit is in addition to all the other funding we already help you secure.

Our system is one of the most comprehensive step-by-step funding suites in the world today delivering you all you need to insure you can obtain funding and business credit for your business. Contact us today to discover how much business credit and funding you already qualify for

National Editor:
Faith Based & Religion
Rev. Theresa Mercer
Founder of The Prayer Line Chapel

Welcome to "The Transforming Word Ministry." I am Rev. Theresa Mercer, the National Coordinator for this very special, God inspired newspaper.

Through this ministry you will have a 24-hour prayer line with prayer warriors ready to support you; an event calendar where others can see what's happening in your churches or organizations; a way to profile your leaders giving them national exposure and more.

After almost 30 years of ministry I am still excited about serving. I bring much experience to this new mission haven been on the streets of Baltimore, as a "Gospel Messenger"; a church editor for the Afro American Newspaper, Director of Chaplaincy for Liberty Medical Center; Director of Chaplaincy for the Baltimore City Police Department; Visiting Fellow for the Department of Justice (COP's); the First Faith-Based Coordinator for the State of Maryland and more. I am a program and community development experience working with grass root organizations, health care systems, for-profit and nonprofit entities. My years of experience providing direct services, technical training and organizational development strategies for faith-based and social reform initiatives have been very successful. I hold a Master's Degree in Pastoral Counseling.

When we pray together as one man, all things are possible. Please join me in this daily prayer:

This page is dedicated to the hurts of people and communities!!!!

CALLING ON ALL PEOPLE OF PRAYER!!!
CALLING ON ALL PEOPLE WHO NEED PRAYER!!!

Thank God for all people of prayer. If we think we are having it bad now, without the intercessors, prayer warriors and people of prayer we would never be able to envision how terrible things would be. In addition to our regular prayers, come; let us be one on Sunday mornings, the most powerful time for the people of God; because "In unity there is strength." Let's watch God move in our lives and communities as we worship as one man?

I urge you to mark the doors of your home, your church and your lives with this prayer.

Eleven O'clock Prayer

Father God, we thank you for being our Father and our God. We thank you that no man can pluck us out of your hands. We have not been what you created us to be, nevertheless, you have never left us. We have left you.

Your Word in **11 Chronicles 7:14** tells us

"If my people which are called by My Name shall humble themselves, and pray and seek My Face, and turn from their wicked ways, then will I hear from heaven, and will forgive their sins, and will heal their land."

As did the Israelites, your people, when in times of trouble humbled themselves, submitted unto You, then came together on one accord and prayed to You, so Father God, we come.

Forgive us Father God, Creator of the heavens and earth; the father of Abraham, Isaac and Jacob; and Jesus the Christ Your only begotten Son.

Forgive us for our sins.

We thank you Jesus for giving your life on Calvary for us, for taking our sins and bearing our weaknesses making it possible for us to go to the Father and repent so that our sins could be forgiven.

For that we Thank you!

Jesus, You gave us The Father's Word and showed us how to live but we became a disobedient people and have lost our way. The violence of death has numbed and broken us. Evil has overcome us and we have become a helpless people.

Father God, we need you as never before. We realize that we must return to You Father God, our First Love.

Your word tells us in **Ephesians 6:12** "We fight not against flesh and blood but against principalities, against powers, against rulers of the darkness of this world, against spiritual wickedness in high places."

Father God we cannot make it without you. Unless you intervene we should all be lost. Please forgive us Most Holy Father. Only through Your mercy have we been kept, and, for that we thank You. Deliver us from the evil that we have allowed in our hearts, our minds and our lives. Please show us how to return to you Our God, the Holy one of Israel that we might find favor in Your site and be delivered. We know that you are the only true God and the only help that we have. You are the only one who can heal our land. In The name of Jesus we humble ourselves, we surrender and pray in the matchless name of Jesus the Christ our Lord and Saviour. AMEN!!!!

National Business Editor
Betty J Holland Hines

Strategic Business Consultant. A
CEO Sounding Board. A Leader who
Leads Leaders.

I bring greetings from Betty J. Hines. I am the CEO & Principal of our Strategic Business Consulting Firm, operating as the ultimate sounding board for CEO's, Business Owners, & Thought Leaders. Our primary focus is working with the CEO's and their Executive Management Team. Currently I work with CEO's who run multi million and billion dollar companies and facilitate roundtable discussions with them on how to achieve

increased business and financial success, as well as individual growth.

The Strategic Business Consulting Firm brings many years of experience in leadership management & training to our valued added customers, to bring them exceptional ROI's.

Our Leadership and Management operation emphasizes a very unique process

we use to help CEO's measure their full potential and growth strategies that they have set forth for their companies.

We help them develop and enhance their Business Plans, Retention Strategies, Strategic Initiatives, and Succession Planning.

So our BIG Focus is to have STRATEGIES around the business that enables them to grow.

We do this by working in 3 different business sectors:

We have our Leadership Suite;

We have our Business Service Offerings; and

We do ongoing Training and Education.

Often business owners reach certain revenues and they get "stuck". It becomes difficult to stay focused and motivated on what's next. Though you are a performance driven company, you don't know how to keep your team connected and how to keep them focused and accountable, yet stay energized and engaged with each other. You don't know what tools to use or you have too many. You need someone to help you facilitate and help you navigate through your own brilliance.

Strategic Business Consultant is unique because WE ARE NOT JUST A COACHING BUSINESS, we are EXECUTIVES, STRATEGISTS who focus more on working with the CEO to make them a better CEO, so they see the return on their investment.

National Editor: Books/Authors
Haki Ammi

**The Success Scholar: Entrepreneur,
Author, Radio Host & Speaker**

When we study the many great speakers, teachers, workers, organizers and thinkers who have achieved various levels of success Many think of Frederick Douglass, Malcolm X, Reginald F. Lewis, Barack Obama and many more. These are all who our young people have to look up to since many young African American men in this society may not have examples of Black men in their homes. Haki Ammi the Success Scholar hails out of Baltimore, MD. Being born and raised in Baltimore could be and has been a blessing and a curse for me. Not knowing many of these great thinkers the most one may be exposed to are the Black History month favorites that we hear and read about.

Haki Ammi is the Best Selling Author of Mission Unstoppable Extraordinary Stories of Failures Blessings a Best Selling Co Authored book with Les Brown and Dr. George C. Fraser. This didn't come without struggle. Around age 17 I almost lost my life over Baltimore street foolishness. The lesson that I learned from this was to never allow someone to dictate the circumference of your mind and your association. After this life changing event I realized that things were rather serious and I needed not stay in the same place with the same mindset. As I reflected how sometimes one must get away from an environment in order to change. That has been one of my mantles to transform. You see some people can change just through their

mindset while others need a physical change. I opted to physically change since I thought I didn't have the strength to change my mindset at that time. I opted to go in the U.S. Navy.

While in the navy I discovered that there still was yet another level to achieve. Just having a job or a "good government" job is not the absolute standard bearer for my destiny. So what does one need to get to another level via wealth, employment or career? You need knowledge. I didn't just accept what some thought for me was "a better life" or a "good job". I always wanted more so in order to create more you must take action. I took action with knowledge. From age 20 to 31 I read 100 books a year for 11 years. This may not sound great to many of my Super Empowered National Portal Readers though. None the less when I learned another great Trainer and Speaker Tony Robbins read 100 books a year for 7 years I realized I was onto something.

Entrepreneurship has always been in my spirit. I've always felt I could overcome my life challenges though sometimes you don't know what you don't know.

Therefore, Not only do I encourage reading, though we also must attend conferences, workshops and watch educational shows and create multiple cash flows.

After being involved with several Network Marketing Companies the training has been awesome. I realized though that being Conscious and coming from a History of Economic inequalities that are real I needed to have a Cultural and Historic lens of how I got where I am and where I am going.

Attending the Powernetworking Conferences for the past 4 years I was able to hear the best and brightest entrepreneurs in the country. By Co Authoring a Best Selling Book with Les Brown and Dr. George C. Fraser I realized that I have an even brighter future if I execute to a higher level. Currently I Co Host a radio show each and every Monday 8 to 9 PM EST. on www.elifemedia.net I'm speaking more and more while hosting monthly workshops. Looking forward to connecting with many amazing viewers and readers of The National Black Unity News.

May: 2017

National Editors: MLM Zik & Jerri Stewart Multi-Level Marketing Guru's

Zik and Jerri Stewart are natives of Baltimore Maryland now residing in Panama Central America. They cut their teeth in the industry Of Multi- Level Marketing back in 1982 with a Company called A. L. Williams. They rose to the ranks of a National Sales Director under the leadership of the Great Art Williams and their income was \$53,000 a month. They won many trips around the world and contests. They feel their greatest accomplishment was helping many others to earn \$100k and \$50k part-time they also feel blessed that they were able to be a blessing back in the 80's when they set up an Endowment for Copping State College which continues today. They left A.L. Williams/ Primerica soon after Art Williams retired in the early 90's. They went on to become a Diamond Pearl with Tahitian Noni where they won trips to Hawaii and Tahiti.

On the 25th June, 2003 they help founded Financial Destination and in that company they were earning \$33,000 a month. They left there and founded their own MLM company, Your Promised Land which marketed Wellness products. That company lasted three years. Zik and Jerri decided two years ago to

go to Panama to retire but networking is in their blood. They spend most of their time talking with their nine grandchildren and nine greats, traveling and walking the beach daily.

Zik and I over the coming months will be sharing many things which will help you to move forward. Lets however get started with the first skill you need regardless what you are doing or building.

The important skill that is needed to discover success is problem solving. We can share the stories of how other people did it, but we can't force you to be successful. But, if you know how to problem solve, if you know how to find solutions and take what you learn to overcome obstacles, then you can make yourself successful.

There is no course in school that can teach you to be successful in Network Marketing. In our opinion, success and life needs to be discovered, they cannot be taught. In the up and coming articles we will share some of our experiences, so strategies and some problem solving techniques so you can discover how to be successful in this industry.

We know many people wonder what

they will do when they are faced with a problem. They worry that they'll freak out and won't know how to fix it. Or they worry that the problem will be too big and crush them.

We are no different. Yes, sometimes when we are faced with a problem, we freak out. We worry that we are not going to be able to fix it, it's just too big. But then, we take a deep breath and decide that freaking out is not going to help. And we go to work solving the problem step-by-step.

How to Eat an Elephant

A mentor of ours once asked us "How do you eat an elephant? With a spoon, one bite at a time." Every big problem has a lot of different little problems. So, if you solve one problem at a time, at some point, you will realize that you ate the whole elephant.

Now, we know we are not the smartest persons, and we don't have all the answers. But we do know where to find them. That is one of the skills of problem solving-knowing how to look for answers. Sometimes, it's as easy as typing a question into Google. Other times, we have to go to a mentor, do research, ask for advice, or see how other people solved similar problems. But you have to be resourceful and figure out how to solve the problem.

Blueprint for Problem Solving

Over the years, we have figured out a blueprint for problem solving. There are eight steps:

Be Resourceful – It doesn't matter what your background or situation is, you can

find resources to help you.

Ask the Right Questions – Instead of asking why this has happened to you, ask questions that will lead you to a solution.

Build Relationships and Collect Friends – Bouncing ideas off other smart people and influences are good for your life and business

Find a Great Mentor – It is going to take you a lifetime to learn everything you need, so why wouldn't you ask those who came before you?

Be Patient – Be prepared; it will take more time, more money, and more effort than you anticipated.

Pay Attention to the Advice of People You Respect and Trust – But don't waste it on the opinions of others.

Think Outside of the Box – Step outside and observe the whole situation for there is a door that will lead you to a solution.

Take Action! – Start solving your problem.

Your ideas are worthless, unless you figure out how to implement them. Your goals are un-achievable, unless you start taking steps to make them happen. Your problems are unsolvable, until you start solving them one by one.

Don't ever let anyone convince you that there is a task too big for you, a mountain too high for you, or a goal that you cannot achieve. You have everything it takes to solve any problem that is thrown in your path!

Sitawi & Cynthia Jahi

**Founders: Movements Unlimited
Entrepreneurs & Consultants**

Jambo!(Hello) Habari Gani!(What's the news?) Greetings from Movements Unlimited Travel. We are the husband and wife team of Sitawi and Cynthia Jahi and a team of other highly qualified travel agents. We are excited to be a part of this ground breaking publication headed by Mr. David Murphy a gentleman who always works to keep our community informed and moving forward. We are looking forward to serving you in the area of travel; this includes people who are adventure seekers, sports enthusiast, food lovers, museum lovers, history buffs and lovers of culture, those fun- quick getaways and those dream vacations of blue water and sandy beaches and much, much, more!

We are excited to introduce our team to the "well-seasoned traveler" as well as the "I haven't been anywhere yet, but I am interested in travel," type of person. We will offer travel tips, updates on travel regulations and changes you need to be aware of as well as where to go to have your kind of relaxation and FUN!

Wake up my African American Brothers and Sisters there is a great big world out

there waiting for you to explore it. Have you ever met someone who said that they were "bored and didn't have anything to do?" Have you ever met someone who had children (ages 5 -17) and said "I don't know what to do with these children?" Well, Movements Unlimited Travel Group has many solutions for you. But first let's take a trip back in time.

Did you know that Africans were exploring the world thousands of years ago? There are ancient artifacts of Egyptian ships and vessels from other African nations. Did you know that people like Frederick Douglass, Josephine Baker, Paul Robeson, and Marcus Garvey traveled the world during the worst of times for people of African descent? Well it is true; Africans and people of African descent have been traveling the world by foot, camel, boat, ship, horse and buggy, train, car, bus and most recently airplane.

Just Imagine what it must have been like for the 1st. Africans to travel by ship to distant lands such as South America. Just Imagine what it was like for Freder-

ick Douglass to travel to Europe during the height of slavery and later to Africa and to climb the Great Pyramids of Egypt at age 70!

Here is a little history; during the Jim Crow Era – there were many dangers facing the "Negro" – African American Traveler. Many of these travelers were traveling for business. Many were athletes, entertainers and salesmen. Thank goodness, for Victor Huge Green for creating and publishing "The Negro Motorist Green Book". Mr. Green a New York Mailman created this book to provide a passage of safety and more comfortable travel for the African American Road Tripper.

It was noted that as soon as the "Negro" could buy an automobile he would because that was the safest mode of travel for us at that time. With the information in Mr. Green's – Green Book, the African American road tripper could avoid the problems of the Jim Crow Laws, various forms of discrimination, segregation, insults, other discomforts and dangers, especially in the "sundown towns". This book assisted travelers from 1936-1964. Up until Civil Rights laws were passed.

Well thanks to many marches, legal battles and the passing of the Civil Rights Laws things have improved. The Green book may not formally exist anymore, but it is always wise to know your history, know the history of where you are going and the culture of the place you are traveling through and to.

MOVEMENTS UNLIMITED TRAVEL - We love travel and we started like a lot of people, with our own personal travel. However because we spent over 20 years working with youth, we developed a travel component for our youth entrepreneur program and we have taken youth to the Museums in our home state of Maryland, New York, Washington D.C. , Nashville Tennessee, West Virginia, Virginia, Florida, North Carolina, and New Orleans to name a few.

Because we love people, our travel component expanded to our Senior Exercise Participants and is still growing. Travel is for everyone, the young and the young at heart. So no matter your age, we will put together a wonderful trip for you. We can be contacted at www.movementsunlimited.net

Our team of experts have traveled the world and booked travel all over the world! We offer many opportunities for travelers to save money on their travel. For those interested in being pampered we have our VIP Discount Travel Membership simply contact us at info@movementsunlimited.net

We also offer fundraising opportunities for churches and nonprofit organizations! Plus we offer a travel agent income opportunities for those seeking to cash in on the 8.1 Trillion Dollar Travel Industry.

Thank you,

National Editor:
Connecting Africa To America
Patrick Essandoh
Connecting us Globally

Greetings my name is Patrick Essandoh, I was born in Ghana and have lived in several countries around the world and I currently reside in Virginia (USA). I am an entrepreneur with a background in IT.

My goal is to connect the dots, in other words I will be uniting Africa with African American business owners. Especially The Continent of Africa and the United States businesses and services. Together the possibilities are endless when we do business with each other.

One of my objectives is to encourage, facilitate international trade. I will also

highlight African businesses located in the United States. The National Black Unity News will be a major asset to achieve this worthwhile endeavor.

According to the United States Census Bureau, there are more than 2 million businesses in the country that are owned by African Americans. That statistic dispels a lot of rumors that African Americans are not successful in business. On the contrary, Black-owned businesses are a huge asset to the U.S. economy. But wait there's more!

Of the 2 million Black businesses in the U.S., only about 107,000 of them have

actual employees and they employ The highest ratio of Black-owned businesses is in Washington, DC where 28% percent of all businesses there are owned by African Americans. We have the second highest ratio of Black-owned businesses is in the state of Georgia, where 20% of ALL businesses there are Black-owned.

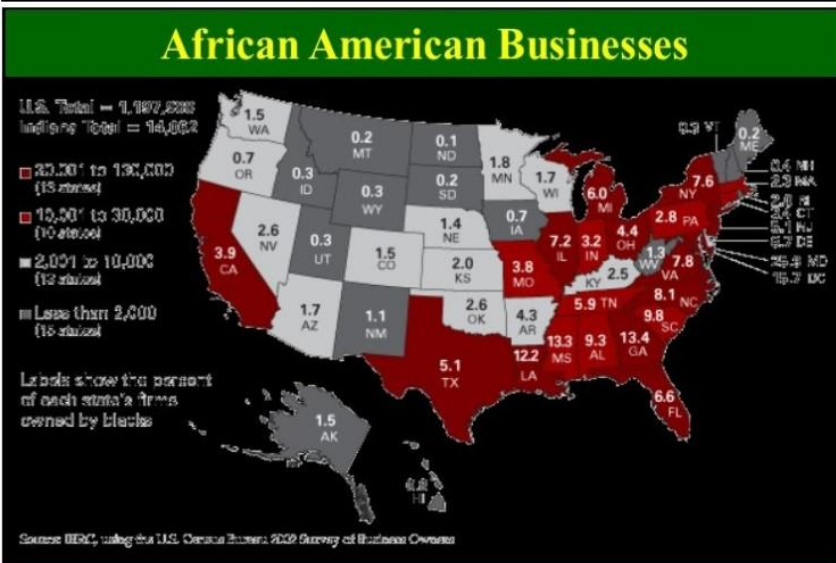

Although the ratio is only 10.6%, the state of New York actually has the most Black-owned firms at 204,093 more than 920,000 people with a total annual payroll of about \$23.9 billion. Nearly 38% of Black businesses are in health care and social assistance, repair and maintenance, and personal and laundry services. Other popular categories among Black businesses include advertising firms, auto dealerships, consulting services, restaurants, barbershops, beauty salons, and more.

The African industry continues to be characterized by high levels of growth and opportunity, and as the industry becomes more dynamic, the opportunities

within it increase in equal amount, as do the challenges. In 2017. The National Black Unity News will provide an essential, in-depth coverage of the contemporary and future African industry and medium size businesses, highlighting specific areas of growth and opportunity

The National Black Unity News will be a format for African Businesses in the USA. It will serve as an authentic tool to expose and unite African and African American businesses. If you are an African and you are doing business in America contact me so that I can assist you with exposing and networking your business, services or products.

The time have come for us to join forces for the greater good Africa and African Descendants. The time have come for us to support, patronize, recognize and celebrate what unites us. Call me because we will make a significant difference here in America and beyond!

Manifesto A People Born Into
Themselves As African Americans

WE HAVE NO CULTURE

A culture is a thing that is separate and distinct and causes others to recognize at a glance those physical objects and sociological activities as things belonging to a particular group of people. Cultures have been around before those living in them knew what they were. We, the African-American, have no culture. We have not, in anyway, raised ourselves above who we were and what we were made to be as a single group. Therefore and very painfully, We are cultivated but not as who and what we are, we are cultivated in the ways of other cultures. We as a people were bred in the U.S. of A. on stud farms like domestic animals. We were bred through a process of mongrelization or miscegenationally created because we were given a way as gifts, precious gems, and play toys.

The only thing exclusively to our people, up until this point in our lives, with no exceptions, is our ability to create music such as jazz, gospel, rap and hip-hop. Jazz is a hot uncontrollable form of music that speaks emotions in a language that takes you beyond standard music. Gospel is our people's personal contact with God; rap and hip hop are music forms and styles born from our existence. Beyond our music, we have no personal idiosyncrasies or race specific mannerisms that we did not bar-

row from another people. We as a people are the sum total of all the people that compose us. We are, and we are alone. We stand on the bottle rung of the ladder of progressive living. We lie down before all others and allow them to use us as stepping stones to a higher level. Unacceptably, we are cultureless, we have no power to negotiate our position. As we are now in this country, we have nothing to cause the higher power to reciprocate the power to be. There is no compensation we will receive for being what they made us. We are the ambassadors of human stupidity, the diplomats of forced blindness, and the emissaries of racial disunity. We are what we are because we have allowed ourselves to be consciously and unconsciously sculptured from the undesirable clay of other people.

We must open our eyes as a people and take a good look at ourselves, before all we could be is no more. We must develop a language, a form of writing that is exclusive to us as a people, clothes, and other idiosyncratic psychosomatic realities indicative of our existence. We have no culture now, but with an assertive effort put forth by us as a single cause, we can create one. Think about it, as you realize the fact that, we are the newest people on this earth, and we must develop a new culture to go with our newness.

Afunemuda Manifest Manifesto
A People Born into Themselves
As African-Americans

Learn who and what you truly are...
 Learn to open your eyes so you can look and see...
 As your ears hear the truth of everything around you...
 While understanding the power of the position you hold.
 Allow these words to become a part of you and your thoughts...
 As you look and see and hear the future of our children coming.
 Read these words and nourish the spirit and courage and hope we possess as a people.
 Now absorb these words and become who and what you are as a part of the people we are.

The National Black Action Portal *Continued From Page 1*

system we can grow, connect and prosper our businesses nationwide! Together we can educate, demonstrate, and illustrate a new way of thinking by hosting seminars, workshops, tutoring, and facilitating mentoring by us and for us! We can no longer wait for or depend on outside sources to do for us, what we can do for ourselves!

It is said that documentation beats conversation. I have been an entrepreneur for more than 35 years. I created the largest black discount directory in Maryland (Togetherness Unlimited Discount Directory) I published several newspapers (The Maryland Informer, The Edmondson Villager) and I collaborated with many others. I hosted two radio programs (Unity In The Community/WOLB) plus (The National Portal/Blog talk) and was the featured guest on many others! I was a high-ranking

member in many business opportunities! I am a community activist and a family man, just to name a few! I mention those contributions, I made, not to impress you but to impress upon you my commitment to my people. I am a true soldier for the cause of social and economic empowerment!

The National Black Action Portal in its infancy is already the largest resource of African American businesses, organizations, services training and educational tools in the United States and we have only just begun! With your participation this can be the largest evolution in United States history. With your support we can take our rightful place at the table of economics, it is written the last shall be first!!!

The time has come for us to take a stand, we must stand in the gap for our

children, We must stand up for our people. Remember that old saying if we do not take a stand for something, then we will fall for anything. Stand with me, because together we will never stand alone. As a people we stand on the shoulders of great men and women but now it is time for us to march into the promise land and take back what is rightfully ours!

In order for our evolution to work we need you to participate so that we can hire our people to operate our system. We need businesses and services on all levels to participate and grow their business. We need authors, motivational speakers, educators, and professional services to host seminars and workshops. Most importantly we need you to join our membership and partake of the many services we will provide to enhance your quality of life! Support a

system that was made to support you!

Go to our website www.thenationalblackactionportal.com and look at the foundation in which we are to build upon, make a commitment, suggestion and join our evolution!

We Need You Because: "Freedom Comes With A Price"

Thank you for time and patience,

David Murphy

Incineration: Drugs & Weapons

Continued from page 1

I am sure could be pulled up on the internet. The point is at that time when we finally got this issue to this stage we had no idea that a resolution is like carrying an empty bucket...it was only a suggestion without action. Of course due to fear and etc. the politicians backed off the idea and didn't take it to the next level. Actually, while protesting the police chief, at the time, along with the protestors were all confronted by the local media. However the chief claimed

that the reason our efforts could not be honored was because they feared that citizens would rob them. This is the only lame excuse that he needed.

happen we would witness a true reduction not just in murder but we would witness a reduction in drug sells and drug usage. Here in Baltimore do any of us have any idea as to how much drugs are confiscated? Hell the city officials don't even have an idea; they have to take the word of the police department. What kind of stuff is that? Have you any idea as to how much pressure we could

foster on these political pundits and operatives if we all would just say that we want to assure our community that drugs and weapons confiscated are being destroyed? Do you have any idea as to what we could make happen if we all just posted this article and asked others to support it?

Have you any idea if we all said to those who want our votes that this is something we want and if you can't deliver for us you can't have our vote? Please, as I end this article again I will say this to you...the good thing about technology

is that we have access to getting information quickly. Search and see how many police have gone to jail over the years for stealing and selling drugs that were confiscated. Imagine how many have not gotten caught. One last point is this...before liquor became legal the fight between mafia and the law was about what? Profit sharing right...why is it that they are not fighting now? Do you think the drug cartels of the world would let these police departments take billions and billions of dollars off the streets without hitting back? Think about it.

Power Only Concedes To Power

Continued from page 1

appear to be above the law or one may say the dominate society makes laws to protect themselves!

Power concedes to power, but power has no respect or regards to the powerless!!! If one really wants some level of power one must obtain power! The fact is until you achieve power you will al-

ways be trampled upon!

One may ask how do you get this power I am speaking about? Well there are natural laws and principals that one must do. All living creatures protect their own and they strive to assure their future generations survive by any means necessary!!! In human cultures, in spite of internal differences, they understand the significance and power generated when they support their own!!! One

must understand power and respect is not given it is earned!!! Dominant societies respect power from the top down to the bottom up!!! Power is power on any level!!!

Societies are a group of individuals, if you are sick and tired of the way you are being treated by those in power then it has to start with YOU!!! In spite of your differences one has to go way beyond the call of duty to support one's own,

one must ensure that our future generations will survive, one must seek out those who are willing to support you as well!!!

If you really want justice for all, then you have to stop demanding it you have to earn it! It starts with YOU! Check yourself first before you start blaming others for what you are not willing to do for yourself!!! Remember this: Power Only Concedes To Power!!!

Black Men Unifying Black Men *Continued From Page 1*

The above statements and questions are just some of many as to why Black Men Unifying Black Men has become another symbol of hope. The inception of Black Men Unifying Black Men has come about because of the issues raised.

Misconceptions will always be, regardless as to how clear something may be, or how fogged it may be. I will do the best that I can to be as clear as I can by giving some description of this group of Black Men.

Black Men Unifying Black Men is not at all a statement suggesting that we only are working with Black Men. If anyone should come to this conclusion, they are far from the truth.

Since I was one of the ones sitting at the table for the very first unity breakfast that was held for Black Men only, I have been giving the task to write about what this group is about.

First and foremost, I want to thank each and every one of these Black Men for not just allowing me to be a part of such a wonderful journey. I want to thank each of you for trusting me with the task to share with others as to what we are about.

Black Men Unifying Black Men is a vision that was created by a small group of Black Men. The vision seemed simple and yet it was challenging because of what would have to happen.

However, because each of these Black

Men agreed that the vision was right, they each signed on as if creating a new hope of saving ourselves and our communities. Yes, I am sure by now the question is how?

The agreement was that we would reach out to Black Men of all ages and backgrounds and bring them together to break bread and share discussion. As one member stated, "once we get to know one another, it is harder to pull the trigger on one another".

So from a very small group of us, we decided that at least once a month we would host a unity breakfast for Black Men only. We decided that we would host it at a Black Owned Business. So once a month, at Terra Café, on the corner of 25th and St. Paul Streets from 10:00 a.m. until 12:00 noon we will host our meeting.

Every month we have anywhere from 25

to 40 Black Men discussing and debating the plight and the plot of Black Lives. Much discussion and much debate takes place within this two hour period.

These monthly discussions have helped to shape the direction as to how we are moving and the mission we have agreed upon. Of course, our monthly facilitator who is Dr. Andrey Bundley emphasizes the need for each of us to know our lane.

The reason as to why I mentioned this is because, when every man works from his comfort zone, of where he is best talented, our rewards will be greater. Again, the goal is simple yet the challenge is great because our aim is to unite every man.

In simple terms we want to create a network that every Black Man who is a part of Black Men Unifying Black Men will benefit. It is our belief that once we start

supporting and working with one another the ripple effect will cause the tidal waves of bringing our communities together as never before.

We believe that if Black Men would work to unite ourselves that we will be able to work to unite our communities. We believe that there are thousands of Black Men here in the city of Baltimore who understand the need and the benefit of us uniting. Together we make this pledge to you.....join us to help us to help you.

Our mission, as to the objective of our goals, should be clear. We want a community that is free from fear. We want a community that provides a decent education. We want a community where our seniors can enjoy the sunshine from their porches.

To accomplish a mission and to reach an objective one must have a strategic plan. We do and it is to unite Black Men to solve the problems of the communities we live in. After all according to any Religious Scholars, it is men who are the protectors and providers. However, if we do not unite ourselves...how do we save ourselves and our children from those who are hurting us?

Those of you who will hear us we ask that you will join us. We need to hear your concerns and your opinions. It is only when we hear one another's concerns can we actively address each. Unity is our key to freedom.....join us.

National Real Estate Editor Sonatta Camara

Entrepreneur, Speaker,
Trainer, Coach & Author

Dr. Sonatta Camara is a real estate writer, editor and investor. She's been investing in real estate since 1992 and has been a Realtor since 2002. She also teaches classes on investing in residential real estate with Camara & Company and Keller Williams.

An international real estate broker Dr. Sonatta Camara inspires, motivates and teaches others how to invest in real estate, build wealth, and leave a legacy. A good man leaves an inheritance for his children's, children and at Camara & Company this is their mission.

Dr. Camara, is referred to as the "Provocateur" for her ability to stir up a passion for change. With this passion comes her desire to shift the status quo of African Americans and home ownership. Nationally, only 46% represents African American home ownership. This unacceptable statistic motivates Dr. Camara to lead the African American community forward on this quest. At 22

she bought her first property and immediately saw the financial benefits. Since then, over the past 15 years she has helped hundreds of families to find the perfect property for their needs and showed them how to increase their wealth. She also seen a lot of people make common mistakes in choosing a broker, so she created the guide: "7 Biggest Mistakes People Make with Real Estate Investing and How to Avoid Them" - it's available for free at her website: Camara and company.com. Real estate is not the only way to get rich today, but it certainly is a simple one to understand.

This passionate desire to change the national average of home ownership reflects in her consistent and systematic real estate methodology. This background led her to build the greatest real estate firm in the Washington, D.C. metropolitan area. With a team of extremely experienced and committed profession-

als, Camara & Company established positive inspiration, a clear vision, and massive influence within the real estate industry. Prior to that ingenious development, Dr. Camara obtained her Bachelor of Science in Finance and her Masters of Business Administration from The University of Maryland. Dr. Sonatta Camara, is not a medical doctor, but has her PHD in organizational management. Organization management refers to the art of getting people together on a common platform to make them work toward a common predefined goal. This is her passion to help people like you build wealth thru real estate. The type of wealth you're not able to get from JUST working a 9-5 job.

Her vast experience in working with companies such as McKesson HBOC and Arthur Anderson is where she gained valuable technology experience, dedicated client knowledge, and the personal confidence to stand out as an international premiere real estate professional broker.

As an award-winning international speaker, author, trainer, and executive coach, Dr. Camara presents keynote speeches, intensives, and conferences and consults with clients and professionals on a global level.

Wealth building through real estate investments begins with one house at a time. Often, when you hear people talk

about real estate investing they are talking big numbers. You hear about the millions to be made in the market, especially now when everything is on sale. You hear stories about the people who own 50 or more single family homes or bought a package of 10 investment properties. What gets lost in the hype is that the vast majority of these investors began with just one house. At Camara & Company they partner with you to achieve your goal whether it's your first property or your tenth.

Dr. Camara challenges the status quo and appreciates and shares with others that leadership constitutes choice and has little to do with title, tenure or position. In her opinion, leadership is an every day, for everyone decision that dictates how we should live our lives. As a Certified Coach and Speaker for the John Maxwell Team, she is able to guide you to bring out the leadership in you to go the next level.

When you invest in real estate, you are getting more than a home; you are investing in you and your family's future. Real estate investing is a way to build wealth and establish a legacy With Camara's wealth building blue print, she can show you how to buy and sell real estate utilizing various techniques. This process allows her followers to gain assets, increase their net worth and leave a generational legacy

May: 2017

National Editor: Food Services
Heru-Ka Anu
Founder: BmoreBlack.Com

Growing Food Power

Black People (people of African descent) were the first people to use farming (agriculture) to

produce food in abundance. Through farming our people produced food surpluses that allowed

them to improve their quality of life, and to develop their lifestyle. As a consequence African/Black people developed the most sophisticated civilization (farming) and society of the time.

Ancient Kemet, the first farming society in the world not only focused on itself with respect to generating abundance and prosperity, but carried its knowledge of farming and abundance and prosperity around the planet benefiting all of humanity.

Today, the African gift to humanity has all but been taken away; through white conquest and plunder white people have robbed and dispossessed African/Black people of their land and resources especially food.

Food is the basis of abundance and prosperity, and the basis of health and well being.

Food As A Weapon

Food is being used to control our lives and to negatively impact us. Food is

used to exploit and drain our communities of its wealth.

Food As Power

If you control your food you have power; if someone other than you controls your food they have the power. Food Power! Food Feeds Love!

The TaNefer Ankh Community Food Co-Op empowers our community, family and individual

with control our food supply.

Black People in the United States are the only group of people that do not supply our own foods; we have been rendered dependent upon other people to supply what we should be doing for ourselves. Those upon whom we depend to provide our food control our wealth.

Food Power is the rallying call of TaNeferAnkh Community. Food is the basis of civilization, society, wealth, and wellness. When a people control their food they control their lives.

Growing Food Power

Food Power = Black Power

Food Power is realized in our establishing control of our food from seed to consumption. Controlling the land and waters from whence our food comes is an objective in our overall goal. Land is essential to where and how we grow food. Abundant and healthy land is es-

sential to our ability to generate healthy and abundant food. Control of land is essential to the control of our lives. Without land we are certainly controlled by those control the land.

Our Aku (Ancestors) Kemet began the use of agriculture 10,000 years ago; by so doing they transformed their civilization/society and the world by sharing their knowledge around the planet. Agricultural societies developed and prospered for thousands of years based on this new 'way of life'. As a consequence of the phenomenal abundance in food wealth the human population grew tremendously going from approximately 10 million people to 300 million in just 8,000 years (from 8,000 B.C. - 1 B.C.). Where we are now, 2,000 years later, the population has grown to more than 7.5 billion people; all due to agriculture the abundance of food as the foundation.

With the abundance of food, Black Civilization and societies flourished a round the planet. Black societies founded on the agricultural 'way of life' manifested all manner of development, wealth and beauty. These developments were expressed in government, science, culture, and technology. Combined, these elements in Black societies manifested in art, fashion, music, cooking, language, inventions, peace, wealth, spirituality, travel, and all manner of social cultural, intellectual technological, economic and political expression. In short, Black People around this planet thrived from one society to the next.

Food Power - the abundance in food wealth was at the foundation of Black prosperity and greatness.

Today we are without Food Power, without its attendant prosperity, wealth, and greatness. Having been conquered and robbed (deprived) of our land and

resources we have been rendered dependant and manipulated by those that now control the land, the science and technology of generating food. We are now dependent upon others, our adversaries, to provide even our basic food needs.

Because Food is power it is used by those who control it to manipulate Black people, to deprive us of it hence national poverty and 'food deserts' (no food stores or healthy food based products), and the proliferation low quality food - based illnesses in the Black communities throughout the U.S.A.

Instead of owing and controlling the land and the production (growth) of food, we are forced into a situation of having to work for others to acquire food. In this situation we can never acquire food - wealth or control the food quality, nor our food - based health and wellness. We are at the mercy of those that do control the food, and we can see clearly that they do not have good intentions as it relates to our wellbeing.

Our goal and objectives are to establish Black Food Power (food sovereignty and food security) throughout the Black World. We realize that Food Power is essential to our ability to transform our conditions from one of domination and dependency to that of independency and self - reliance; that control of our land, and from seed to consumption is necessary. With this understanding we are endeavoring in a variety of directions and projects to restore Black Food Power. From Land, Seed, Food Production, Food Distribution, Food - based Manufacturing, Food - based Commerce / Trade, Health and Nutrition plus Food Security. To participate contact me!

National Editor:
Power Of Purpose: Radio/TV
Latoya Ladelle
Uplifting & Inspiring Talk Shows

Latoya Ladelle is more than just your typical singer, songwriter and author. She is anointed by GOD for such a time as this. She is the Founder of Power of Purpose Radio where the mission is to Encourage, Empower and Impact the lives of Women Men and Children in Baltimore and throughout the world to fulfill their Divine Purpose/ Greater Purpose.

Through her music, motivational speak-

ing, and media ministry, she empowers listeners to embrace their 'Greater Purpose.' She holds on to Jeremiah 29:11 which states, "For I know the plans I have for you, declares the Lord, plans to prosper you and not to harm you, plans to give you hope and a future" believing that God has created everyone for GREATNESS and that He specializes in taking ordinary people and making them extraordinary.

Driven by the cries for deliverance and the critical hour of the times, Latoya Ladelle is on a mission to encourage, inspire and empower EVERYONE who needs the message of hope, healing and freedom. She is currently in the station, preparing to minister through music and media. Power of Purpose Radio air "power packed" programs featuring anointed hosts. Thousands are touched, empower and propelled into their divine purpose monthly, through Power of Purpose Radio. God's presence at her powerful live musical performances and weekly radio program, sets the atmosphere for healing, restoration and empowers all to seek and embrace 'The Greater Purpose' that God has for their lives.

The musical and ministerial journey of Latoya Ladelle began when she joined the church choir at the tender age of 4.

Inspired by vocalist like Yolanda Adams, Vicky Winans, and Whitney Houston, she was singing solos and preaching in front of crowds by age 9 and although high-school and college. Latoya Ladelle continued to develop her talents and by adulthood she was writing inspirational messages which are included in her free eBook "The Greatness In You". The eBook will be available for free download at www.PowerofPurposeRadio.com in 2018. Through music, media, and ministering, Latoya Ladelle will continue to encourage and ignite others to relentlessly pursue their God-given purpose and to unleash the Greatness that lies within them.

Tune into and I guarantee you will be blessed!

Black Political Power Vs. White Political Power *Continued From Page 1*

*Despite the fact that we as blacks have been kept from participating in this political process for many years *Despite the fact that many of our ancestors fought and died giving us the right to vote *Despite the fact that during slavery we, as a people, were stripped from our culture, as well as our native tongue, we have still supported this system even when it was detrimental to our progress.

We have witnessed for ourselves that when whites fuss and debate over candidates and over what party is the better political party they are still assured of one thing; that they will fill the seats of power. I mean as it stands presently, we as blacks are supposed to make up about 12% of the population. However, Whites hold 90% of political offices in this country. Yet, we as blacks will argue about party and we will take a white to put into office based upon party politics rather than empower our own. Of course there are many whites who dis-

like one another and disagree on issues and leadership and yet, they will still support one another with the understanding of the position of power that the office represents.

At this present time with an election just a few weeks away here in the state of Maryland we have an opportunity to get our first Black Governor. Yes, he is a democrat and the white man that he is challenging is running on the republican ticket. Of course right now in the United States there is only one Black Governor out of 50 of them. We have a chance to make not just a political statement but we have a chance to make history. Yet, we have Blacks swearing to not vote for the Black candidate because they dislike him and/or they dislike his politics. Truth is I am still asking myself what has been so good for us under the leadership of white political leadership which we have had forever.

Personally as a Black man who is going

to vote for Anthony Brown to become Governor, I am not looking for much to change in my personal life. However, I will have this opportunity to tell my grandchildren that I was living and present and supported our first Black Governor. I am not looking for any more from this Black man than I am looking for from the White man whom he is running against. However, I am certain that many of us will benefit more from the Black man than from the White man. I am certain that Anthony Brown's children could ask him when they get old enough about the politics in America and I am certain he will give them explicit honest answers.

It is a shame that just a few years back many of us Blacks were fighting and screaming for the right to vote. Many of us were fighting and screaming for us to gain some political seats that would equate to some political power. Yet today we have a chance here in Maryland to get a slice of this political power and

some of us are fighting one another to assure that we do not gain the position. Our electing Anthony Brown is not about just Anthony Brown but it is about each one of us regardless of Mr. Brown's politics. We are missing the big picture if we vote White with an opportunity present that will benefit our race.

I am begging each of you who think that you would rather vote White than Black to please. Look at the video 'EYES ON THE PRIZE'. Are you keeping your eyes on the prize? Do you know what the prize is for us regarding the political process? Yes each of us have our right to vote for whoever you chose but to not choose yourselves when there is an opportunity is foolish. As I stated earlier Whites are at the helm of both parties and they are constantly supporting and voting for one another but not because they always like one another and agree with one another. They respect the power of the position. *By Bill Goodin*

CALLING ALL RHYTHM PEOPLE

RHYTHM PEOPLE WANTED!!!

RHYTHM PEOPLE ENTERTAINMENT NEWS

Artists, artisans and Social Transformers, stay hip to the heart beat of Arts & Culture in Rhythm Nation News.

Search here for the latest in Rhythm People Entertainment, Gigs, Bigwigs & Shindigs, and International Rhyme & Reason to connect with upcoming events, travel, investment/trade opportunities on the continent/diaspora and the inside scoop on how Rhythm People around the world are reclaiming our global cultural economy.

Culture is the New Currency!
#WeAreTheRhythmPEOPLE

National Entertainment Editor

Ms. Kim Poole is a Soul-Fusion Teaching Artist and Founding Fellow of the Teaching Artist Institute (TAI), providing an opportunity for artists and artisans to learn techniques for social transformation while fostering outlets for socially engaged art. Through TAI, Kim and her team of Teaching Artists are originating the Art for Social Transformation, Teaching Artistry in Action curriculum & workbook for change agents and universities interested in exploring the "Art of Possibility" around the world. She has a passion for encouraging the "Rhythm People" as she refers to them, to reclaim their global cultural economy and a knack for celebrating the beauty and resilience of women with SUPER-LASHES through her music and the Sheroes Sisterhood. At 31 years old, Ms. Kim Poole has over ten years experience in International Art Cultural Diplomacy and the world has only begun to learn how this Soul-Fusion Teaching Artist will redefine our understanding of artistic expression in social transformation.

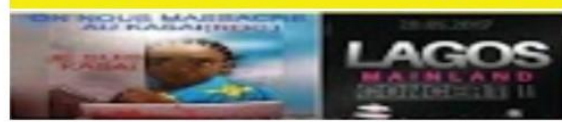

GIGS, BIGWIGS AND SHINDIGS

This Diasporic phenomenon kicks off at the Gullah Geechee Corridor of Charleston, South Carolina during Memorial Day Weekend

By: Sam Collins
Rhythm People journalist /
Founder of all eyes on D.C.

Other stops on the tour include Texas, Jamaica, California, Cuba, and France, places with huge diasporic African presence. In these places, RPC will expose guests to a variety of performance, visual, and mixed media art and provide opportunities to learn about Africa of the past and present during workshops and demonstrations led by Teaching Artists. This interactive experience will compel our People to act as global ambassadors and shake the institutions that directly and indirectly affect their daily lives.

RHYME & REASON NOMAD Tour Spring & Fall 2017

For hundreds of years, African music and culture have been shunned, stolen, repackaged for global consumption to the detriment to people of African descent, a group of the more than 1 billion people suffering from disunity and broken identity.

In the summer and fall of 2017, the members of Rhythm Nation, a metaphysical realm where Mama Africa's children reconnect and find Knowledge of Self through the sounds of the Motherland, fight to take back what's rightfully theirs.

The NOMAD Tour, hosted by the Rhythm People Coalition (RPC), sets out to showcase the musical resources of Africans and raise African consciousness. During a series of events across the United States and around the world, participants will understand the undeniable presence of the African drum beat in all facets of our society.

RPC, a collective of artists, activists, and advocates for the preservation of African culture and art, hopes to spread this information beyond the computer screen, connecting with others face to face - the way our Nomadic ancestors did.

This Diasporic phenomenon kicks off at the Gullah Geechee Corridor of Charleston, South Carolina during Memorial Day Weekend.

Legal Services
Antonio Adair
Legal Services Advocate

Greetings, my name is Antonio Adair. I am an advocate for legal services. I will be bringing your attention to many areas of legal concerns that affect many of us. I will be covering legal issues such as business, financial, wills, crime, civil etc.! I am extremely concerned about my people (African Americans) whom have been victims throughout history in the United States of America.

I have some very alarming statistics that we as a people face consistently here are just a few.

One in six black men had been incarcerated as of 2001. If current trends continue, one in three black males born today can expect to spend time in prison during his lifetime

Nationwide, African-Americans represent 26% of juvenile arrests, 44% of youth who are detained, 46% of the youth who are judicially waived to criminal court, and 58% of the youth admitted to state prisons (Center on Juvenile and Criminal Justice).

African Americans now constitute nearly 1 million of the total 2.3 million incarcerated population.

African Americans are incarcerated at nearly six times the rate of whites

Unfortunately laws are put in place to combat some social ills, but due to unfair policing and discrimination results like this happens to us! In 2002, blacks constituted more than 80% of the people sentenced under the federal crack cocaine laws and served substantially more time in prison for drug offenses than did whites, despite that fact that more than 2/3 of crack cocaine users in the U.S. are white or Hispanic.

We face many issues but I am here to help you to help ourselves. We have to protect ourselves, our families and our communities. I am here to assist you in doing just that, I do understand that legal services can be extremely expensive, but being without legal services often

proves to be even more expensive.

I will help you with information and resources that are available to protect your self and your love ones. It also takes a village, we have many African American Lawyers, local city, state, government agencies, and many knowledgeable people who can provide information or services. I am inviting you all to participate in this section of The National Black Unity News. If you want to promote your services or if you would like to contribute some information please contact me, your input is welcomed.

I am looking forward to working with and for you! It is said "It's not a matter of if you need legal services, it is a matter of when!" Prepare and protect yourselves and your love one's. Call us if you have legal issues or concerns. I do have a plan that can provide many services, all you have to do is just Call!

**It's Not If You Need Legal Services
It Is The Matter Of When!**

Annual United States Reports

15 million civil cases are filed in the U.S.

Violent Crimes averages more than 1,400,000

Property crimes has risen to more than 1,500,000

About 10 million people are involved in car accidents

Promoting Unity In Our Communities, We Are Keeping The Dream Alive!

If Not Us, Then Who? If Not Now, Then When?

Promotional Issue

Vol. 1 No.1

May: 2017

Continued from page 3

that we have by supporting one another.

Personally, I am a little pissed off some-time when some of the older conscious people ask such a thing. Why am I getting challenged on advocating for unity? Why would one ask such a stupid question as to what kind of unity? I am talk-

ing about the kind of unity that we need to save ourselves.

If you are reading this article, it simply means that you are holding a Newspaper...a publication that will be a part of helping to promote unity and the benefits of unity. In this paper will be stories of Blacks who are working in our better

interest.

There will be people whom we highlight who are not just in business but people who are organizing daily at trying to find solutions. Without a doubt, we think that if we help to bring those of us together who are truly working for the benefit of our people....that together we

will have the right recipe that will save us.

The old adage, "united we stand divided we fall" is true.....look at our communities, they are clearly falling because we have been divided.....our hope is that you will join us as we continue trying to unify us.....

The National Black Unity News: Unity In The Community

First and foremost let me give a personal thank you to the "CREATOR" for not just waking me up and giving me health but I am thankful, that I have been chosen to be a part of such a publication.

I want to thank my friend and brother David Murphy for the vision that he has created in reintroducing a publication he put out years ago. Years ago, the publication was the Informer and today it is The National Black Unity News.

As one of the people who is a part of this great publication, I have been offered the duty to appeal to many of you seeking your support. Yes, let's be clear every publication just as any other business, desires to make a profit. We too also desire to make a profit because it is the financial reality that allows a business to continue.

Of course as we speak about financial obligations, our biggest challenge is to fulfill the mission of this publication. What is the mission? The mission is to be a driving force in helping to create unity within the Black Community.

Let me be as clear as I can when we speak about unity. I am talking about directing our readers to Black Businesses. We are speaking about helping one

another to become more politically astute so that not only will we vote within our better interest. But we will also articulate the better interest of the Black Communities to those who are political leaders.

Yes, we will strive to reach those lost brothers and sisters who are caught up in the negatives of the world. We think that by bringing Black Men together in small groups, such as forums and other means, that we will start to establish a sense of unity which is our mission.

This publication will not be a publication to focus on the negatives in our communities...we will focus on the good. It is simple as we see it, we cannot promote what if and what can't happen but we will promote what can happen through unity.

We believe that through the power of words great things could happen. We also believe that the majority of us want the same thing and things. Yes, we want decent communities. Yes, we want peace where we can walk throughout the communities without walking in fear. Yes, we want the best of schools for our children.

Your input as well as your support will

determine if we accomplish our mission. We have come to the conclusion as if it is to be, then it is up to us. What we mean is this, if we are to change the conditions that we are presently facing, we must accept the challenge and if we accept the challenge, indeed we must become the agents of change.

I am asking each of you to help us so that we can help you. If you are helping us and if we are helping you, it means we are helping one another. When we help one another and spend with one another we create expansion.

Just think about this, it is stated that every other group of people have a base as to how many times money is spent within their communities between one another. Meaning that Asians spend their money with one another even though they accept our money. White people spend their money with one another even though they accept our money.

Of course we could name other groups who get our money but do not recycle our money back into the communities they take it from. However, that is our fault and it will never stop, until we stop spending ours with others who give us nothing back.

We will highlight Black Businesses as well as Black People who are working in our best interest...when we highlight them, it will be your choice as readers to go and spend your dollars with those who not only look like you.....but those who live with you.

The challenge seems great but trust us, we are up to the challenge and excited about the challenge. If we were created to rule our destiny then, we must raise the question as to when do we start?

We ask that you will not only read this publication but that you will become a part with helping to promote this publication. The future of our children that are presently here and those who are yet to come will benefit from the actions we take...or they will continue to suffer from the actions that we fail to take.

As I bring this to a close, I thank each and every one of you brothers and sisters who have stood with us to make this a reality. Our promise is our pledge and that is that we will do all within our power to unify us.

Standing together is the path to victory divided we have witnessed what it will do. This is now the time to call for unity....spread the word. *By Bill Goodin*

NaNO Tech Know
Analytics & Consulting, LLC
Yero Umoja
Chief Strategic Officer

Sometimes you need a team to manifest your dreams; soldiers on a mission helping to achieve your vision. You are the architect to your life's purpose and personal wealth but may require a builder's help.

We at NaNO Tech. Know. (NTK) assist visionaries and leaders in building their business and communities. In growing your ideas we focus on balance to promote healthy growth. The success of

any organization is directly related to several factors, we list only 3 here:

Leadership – Vision and Strategic priority

Team Performance – Communication, fundamental operating processes, actionable deliverables and measurement systems

Satisfaction of clients and stakeholders – Business objectives / client needs

are met and social demand is addressed.

Though we all have a vision for our organization we don't always have what's critical to our success identified or well documented. If we want quality outcomes we must utilize effective processes and tools. A lot of projects are hindered or fail because a team did not probe deep enough, use accurate measurements, and/or missed opportunities (which may be right in front of us) all together.

By conducting analysis we can mitigate risk, better leverage our resources, and effectively structure our projects for quality outcomes. Remember this basic cycle: Contemplation, Demonstration, Analysis, Evaluation, and Application. We all create and implement plans but not all of us run planned analysis like

major companies do.

If we really had it all figured out already why are our dreams deferred and the quality of our businesses or communities unchanged? We can build together. "How much do you cost we're often asked?" The question is not can I afford NTK (because we are willing to adjust to your operating budget), but can I afford not to have the kind of support for my team that NTK offers? We have to make our next move our best move! You have to make every effort to achieve your business and community development goals. People are depending on you to succeed.

Seek Truth and Good Health,

Yero Umoja
Chief Strategic Officer

NaNO Tech Know Analytics & Consulting, LLC

We offer

Workshops – Designed to offer insight on basic enhancements which can place your organization in the direction of growth.

Training seminars – Designed to give your organization insight and help to generate innovative ideas which include NaNO Analysis.

Multilayered Analysis – We conduct several forms of fundamental analysis, standard business analysis, OPI analysis, and NaNO analysis.

Consulting – We assist with all improvement projects to enhance general management, leadership, staff development, team performance, organizational change, retention and sustainability.

IT consulting and Solutions – civilian projects and some government contracts.

Marketing Projects – We institute a limited number projects focused to increase customer base, membership, sales...etc.
